Education

University of Engineering and Technology Lahore, BS in Computer Science Oct 2020 – May 2024

- GPA: 3.06/4.0
- Coursework:** Artificial Intelligence, Mobile App Development , Cloud Technologies, , Business Strategy

Experience

Software Engineer - I | React Native Developer

[Digilawyer](#) – Lahore, Pakistan | Jan 2025 – Dec 2025

- Integrated AI chatbot and search functionality with a tRPC backend, enabling seamless user interactions and data analysis.
- Managed app store deployments for both Android and iOS, ensuring smooth releases and contributing to effective team collaboration.

Software Engineer - I | Mobile App Developer

[Vyro.ai](#) – Lahore, Pakistan | May 2024 – Dec 2024

- Contributed to apps with **100K+** downloads by supporting UI improvements and ANR (Application Not Responding) reduction efforts.
- Gained practical experience in **Mobile Development**, **User Experience**, and real-world **Problem Solving**.
- Started exploring **Kotlin Multiplatform**, focusing on shared library development and scalable architecture principles.

Projects

SmartDen (AI Home Assistant)

- Built an AI-powered home assistant with secure financial services integration.
- Created an RAG-based profiling chatbot with LangChain for personalized user interactions.
- Tools Used:** Node.js (TypeScript), **Flutter**, LangChain, OpenAI API, MongoDB

Future Crime Detection (CLEAR: Citizen Law Enforcement Analysis & Reporting)

- Designed a time series forecasting system for crime prediction using Facebook Prophet and historical data analysis.
- Implemented location-based visualization and real-time prediction models for law enforcement insights.
- Tools Used:** Python, Facebook Prophet, Pandas, Matplotlib, Seaborn

NEXTSTORE (E-commerce Platform)

- Developed a full-stack e-commerce platform with Stripe payments and catalog pagination system.
- Implemented secure user authentication and a responsive product management dashboard.
- Tools Used:** Next.js, MongoDB, Stripe API, TailwindCSS, Redux

Technologies

Languages: Java, Kotlin, C, **Dart**, , SQL, JavaScript

Technologies: Flutter, Next.js, Node.js, React-native (Expo), Android studio , Git , KMP ,

Certifications

J.P. Morgan - Software Engineering Virtual Experience

Nov 2023 - Dec 2023

NIIT - Building RESTful APIs Using Node.js and Express

Aug 2023

Google Cloud Badges

Jan 2023
